• DuraBella® Long Lasting Beauty

Creating a successful combination of plants is like developing an exceptional recipe, and a good chef works with top-quality ingredients. As plant breeders, our job is to know our genetics their strengths, their colors, and how they grow and interact with each other. Using our high-quality genetics, multiple testing sites, and a cross-section of market feedback, we are confident that our DURABELLA® collection will provide consistent performance for the grower and the consumer alike.

DuraBella *Plus*

Sun crisp™

Tradescantia Purple Passion

DuraBella^{Plus} builds on our successful Durabella[®] combinations, by adding a "spiller" component from our Accent Plants or Floresta[™] assortment. These premium combinations encourage a higher price point at retail, as well as enhanced customer enjoyment. Our suggestions in these pages feature components that can be grown with the same schedule and culture as our Durabella[®] program.

Bringing The Heat[™]

Lysimachia Goldi

Lakeside Haven[™]

Tradescantia Tricolor

Cottage Time[™]

Tradescantia Purple Passion

Recommended Add-Ons from Our Portfolio

- Begonia hybrida Red Slippers
- Tradescantia
- Rhoeo
- Hedera
- Lami[™] Lamium
- Lysimachia
- Plectranthus
- Sedum rupestre Angelina
- Vinca major

Add-on components of Floresta[™] are available from Danziger Guatemala and are shipped separately from DuraBella[®]. Annual and Perennial add-on components used as thrillers may require a different growing period. For support and planning guidance, please contact our team.

Looking for a market-tailored DuraBella[®] Plus combo? Contact our team for customization ideas.

Floresta™

A New Standard in Foliage Cuttings by Danziger

Danziger is creating a new standard in foliage cuttings production, bringing reliable houseplant material and consistent availability of more than 100 varieties to growers across North America.

A New Standard

- Tested clean stock
- Indoor production
- Clean and consistent product
- Published standards
- Posted availability

Indoor Production of Tropicals

- Production of foliage plants in an indoor controlled environment means cleaner stock and cleaner cuttings
- We source from clean material for a clean start

SOL LUNA

Plant in Sun or Shade

Danziger's breeding program delivers vibrant hues, clean foliage, and consistent garden performance across two complementary series:

SOL LUNA™ COMPACT

The ideal choice for small pots and mixed planters, where controlled growth and nonstop color are essential. Naturally compact, early to bloom, and adaptable from full sun to full shade.

SOL LUNA PRIME™

The ideal choice for landscape use, as well as containers of all sizes, where bold color and rapid fill are desired. More vigorous, with larger blooms and fuller plant architecture, while also adaptable from full sun to full shade.

SOL LUNA™ COMPACT | Impatiens hybrida

- Thrives in both sunny and shaded conditions
- Plant anywhere for a bright ball of color
- Uniform series was bred and selected to perform well in packs up to 15 cm
- Varieties maintain their vigor, structure, and size over time
- Little to no PGR needed

The information regarding tolerance presented in this catalog is the result of tolerance demonstrated on field observation and/or laboratory diagnostics, as applicable. Danziger makes no representation and does not warrant or guarantee that the variety will indeed present the said tolerance in practice due, among other, to different factors who might accrue in the cultivation area.

PEER REVIEWED SEMINALS

THINKPLANTS®

Danziger is proud to be a founding participant in the ThinkPlants initiative for the North American market, offering a diverse mix of top quality URC, bareroot, liners and seed items.

ThinkPlants® participants represent a dedicated team, including plant breeders and other horticulture experts, seamlessly connected to a supply chain.

All Danziger genetics are first-year flowering. This means that they have no bulking or vernalization requirements but can also be produced through traditional means.

Panama™ Yellow

CELESTIA™ | *Agastache foeniculum*

- First-year flowering with no vernalization or bulking required
- Sturdy habit covered with fragrant blooms and foliage
- Good rooting performance
- Fast to finish

SOLANNA™

From the first blooms of spring
to the last flowers of fall, enjoy a garden
that's always in bloom

Variety Name	Flower Color	Flower Size	Flower Type	Tolerance to Day Length & High Temp.	Flowering Time (From Planting)	Growth Habit
Solanna™ Bright Touch	Dark Yellow & Red	Medium	Single	Medium-Low	Late spring	Mounded
Solanna™ Glow	Light Yellow	Medium	Single	Low	Late spring	Semi-Upright
Solanna™ Golden Crown	Yellow	Large	Single	Medium	Spring	Semi-Upright
Solanna™ Golden Sphere	Yellow	Large	Double	Low	Spring	Mounded
Solanna™ Sunset Bright	Yellow & Red	Medium	Single	High	Spring	Mounded
Solanna™ Sunset Burst	Light Red & Light Yellow	Large	Single	High	Late spring	Semi-Upright
Solanna™ Sunshine	Yellow	Extra Large	Semi-Double	Medium	Spring	Semi-Upright

SOLANNA™ | Coreopsis grandiflora

- First-year flowering with no vernalization or cooling required, however most varieties benefit from 14 days of cool temperature (10°C/50°F or less)
- Well branched
- Prolonged flowering, spring to fall
- Self-cleaning

Delivering Convenience and Flexibility Together

Online Ordering System

Our online ordering system is designed for your convenience, ensuring that placing and managing orders is both quick and effortless.

- Place new orders
- Update existing orders
- EDI connection for faster service
- Access real time availability
- Placing Standby orders

Contact our team today to start ordering through our user-friendly online system.

Flexible Ordering Protocol

FIRST CUTOFF

Until Tuesday, one week before the shipment date, new orders and changes can be made, until 5 pm EST.

LATE ORDERS

Until Friday the week before shipping, new orders can be made until 5 pm EST.

STANDBY

If product is not showing available, a standby order can be placed by EDI or requested by email. Our customer service team will review and respond within 48 hours.

Order Terms

- Minimum Orders - 2,000 URC's & 100 per variety
- Annuals, Perennials and Floresta™ foliage can be combined to meet minimum order. Foliage will ship in a separate box from annuals and perennials
- Standby orders will be answered within 48 hours
